Election

1. Applicants elect species I without traverse is acknowledged and entered. Claims 1-15, 18, 19, 22-24, 27 and 28 were said to be readable on the elected species, corresponding to figures 1-5. Contrary to applicants' submission, claims 22-24, 27 and 28 are not generic. Argumentatively, elected species I with claims 22-24, 27 and 28 are not corresponding to figures 1-5. Independent claim 22 recites a limitation, specifically, a controller that is mounted to an inner wall of the shell which is drawn to species II, figure 8. Therefore, claims 16-17 and 20-30 are withdrawn from consideration.

REASONS FOR ALLOWANCE

2. This application is in condition for allowance except for the presence of claims 22-30 to non-elected without traverse. Accordingly, claims 2-30 have been cancelled.
3. Non-elected claims 16-17 and 20-21 are also in condition for allowance because these claims are dependent of generic allowed independent claim 1.
4. The following is an examiner's statement of reasons for allowance:

Claims 1-21 are allowed because the prior art neither shows nor teaches an electric power steering device wherein, the support member being secured within the shell and is working to support the steering shaft and the controller and in combination with other elements recited.

Examiner's Amendment

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Page 10 line 23, replaces the words "torsoin bar" with -- torsion bar --.

Claims 22-30 are canceled.

Conclusion

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
